Education

2020 – 2022 Balıkesir, Türkiye	**Balıkesir Üniversitesi/Bilgisayar Programcılığı**

Projects

11/2024 – 11/2024	**MovieLand** ⬈ I built a movie site using **React**, **Tailwind CSS**, and an **API** to create a dynamic and responsive platform.
10/2024 – 10/2024	**Netflix Clone** ⬈ The Netflix clone web page I built with **Django** includes features such as sign-up, login, profile management, account management, and movie and category search.
12/2024 – 12/2024	**Admin Dashboard** ⬈ I developed an Admin Dashboard using **React**, **Material UI**, and **Data Grid** to create an intuitive and responsive admin panel, including features like Light and Dark Mode for enhanced user experience.
09/2024 – 09/2024	**Shoppy Dashboard** ⬈ I developed the Shoppy Dashboard using **React**, **Tailwind CSS**, **Syncfusion**, and **Context API** for an efficient and scalable e-commerce admin panel with advanced data visualization and UI elements.
08/2024 – 08/2024	**E-commerce Clone** ⬈ I developed an E-commerce Clone using **HTML**, **CSS**, and **JavaScript**, creating a fully functional online store with dynamic features like product filtering and cart management.
11/2023 – 11/2023	**React Portfolio** ⬈ I created a Portfolio using React to showcase my skills, projects, and experience with smooth navigation and dynamic, reusable components.
06/2024 – 06/2024	**Frontend Portfolio** ⬈ A dynamic and responsive frontend portfolio built with React to showcase my web projects and front-end skills.

Professional Experience

10/2022 – present İzmir, Türkiye	**Frontend Web Developer** *Qtech Bilgi Teknolojileri A.Ş.* As a Frontend Web Developer, I contribute to both frontend development and UI/UX & graphic design processes. I use React, Next.js, JavaScript, and jQuery to develop user-friendly interfaces and responsive designs with Tailwind CSS. I also work on backend projects using Django, Python, and PHP. For design, I use tools like Figma, Adobe Photoshop, Illustrator, and Canva. I manage projects on GitHub and GitLab and collaborate in agile environments with Jira.

Publications

08/11/2024	**10 Tips for Ensuring Your Website Looks Great on Every Screen with Responsive Design** ⊡ *@merveonalan* This article covers essential tips for ensuring that your website is responsive and looks great on any device.
18/11/2024	**Performance Optimization: Techniques for Speeding Up Websites** ⊡ *@merveonalan* Techniques for improving website performance, including strategies for page load optimization and enhanced user experience.
18/11/2024	**Framework Comparison: React, Vue, Angular** ⊡ *@merveonalan* A comparison of popular JavaScript frameworks, evaluating React, Vue, and Angular based on performance, learning curve, and community support.
